

## **Suggestions & Questions from Our Library Users**

---

**April 2019**

### **Service-related comments**

1. Please consider installing a reader assist device for visually handicapped in the reading room to handle newspapers. Enhanced lighting area over a table would also help.

*Thank you for your suggestion; we will keep it under advisement. In addition, we do have magnifying glasses at the adult services desk. Feel free to ask staff if you need them.*

### **Miscellaneous-related comments**

1. With the Washington St. bus 1 block S and Grand Ave bus 2 blocks N we should get some time tables for the busses as they go to CLC.

*We have found that it is challenging to keep all of the various schedules for public transit updated and readily available for patrons. The most up-to-date schedules are available from the transit websites. Please ask staff at the Adult Services desk for help in printing a current schedule you need. We will be happy to help you!*

---

*Thank you for taking the time to help us improve our service to you. If suggested a title for purchase, we have passed it along to staff members who order materials.*

*Ryan Livergood, Executive Director*
