Good morning,

As you will recall, before the COVID-19 vaccine was so readily available, the Board passed resolutions authorizing temporary allocation of paid sick leave in order to accommodate staff that might not have adequate sick time in the event they (or people in their household that required care) became sick with COVID-19. We discontinued this practice thinking this would no longer be an issue with the vast majority of our staff vaccinated. However, due to the Omicron surge, despite the CDC reducing quarantine times, several staff members have asked if the Board might bring this back. I have added it to the agenda for the Board to discuss.

Thanks,
Ryan
