Could there be a section that pairs books + their movie adaptation especially for kids. I Have A “Books To Movies” book club & I like inspiration. I have a list of ideas if needed.

*Thank you for the suggestion. We love pairing books and movies as well! We do not currently have plans to create a separate section for these items. However, a list of books with movie adaptations would be a great resource to have available in our Youth Services Department. In the meantime, please ask Youth Services staff for help, as we will be happy to provide you with some additional ideas for your book club.*

*Thank you for taking the time to help us improve our service to you. If suggested a title for purchase, we have passed it along to staff members who order materials.*
