Attachments	Evaluation Criteria Capital Projects WNPL Draft 2.docx.pdf

Good afternoon,

Two Board members expressed an interest in possibly using evaluation criteria to help the Board determine how to prioritize the timing and funding of potential capital projects. The attached document outlines one way for us to approach a process like this. The downside to an approach like this is that it might add an unnecessary layer of complexity to our capital planning process. On the other hand, it would remove some of the subjectivity we might unconsciously attach to some of these proposed projects. I look forward to discussing this issue with the Board at next Tuesday's meeting.

Thanks,
Ryan
