Good afternoon,

Attached is the recommendation from Product Design + Architecture for which vendor the Board should approve the winning bid for the LED lighting project.

To summarize, the lowest bidder, All Tech Energy, has solid references from both a public library and a school district for similar projects to ours. Thus, it seems clear to me that the Board should award this project to All Tech Energy. I don't know of any reasons why the Board should take any other action.

Please review the attached document and let me know if you have further questions or concerns.

Thanks,  
Ryan

"Congratulations on the new library, because it isn't just a library. It is a space ship that will take you to the farthest reaches of the Universe, a time machine that will take you to the far past and the far future, a teacher that knows more than any human being, a friend that will amuse you and console you---and most of all, a gateway, to a better and happier and more useful life."  
– Isaac Asimov
