Good morning,

Attached is both the final version of 4045 Social Media and the final draft (Draft 4) which shows the track changes. As you will recall from the May 1 Committee of the Whole, the Board wanted "Article 4. Public Comments" edited to reword the concept that social media users agree to comply with policies that they are really not aware of. As Kathleen had to miss the May 1 meeting, Jo went ahead and took the initiative to make this change, and, in the process, identified some other areas of the policy that needed addressed. Noreen has worked with our staff for additional input, and the attached final policy is a result of this collaboration.

Thanks,
Ryan
