Good morning,

We are almost at the finish line regarding the budget for next fiscal year. Attached is my draft of the budget narrative (I say draft as I will have both Doug and Sandy review it for errors before we release it to the public after the Board adopts the budget) which details the budget and will assist you when reviewing the working budget and projected expenditure documents. If you have any questions about the proposed budget at this point, they are likely addressed in the budget narrative. Happy reading, and remember you can log this reading as part of your minutes for the Summer Reading Program! 😊

Thanks,  
Ryan
