Good afternoon,

The start of the fiscal year begins with the Board starting the process of adopting a series of financial ordinances that eventually leads to the adoption of the annual tax levy ordinance in November. The Board will adopt the tentative budget and appropriation ordinance at next week's meeting, which is based on the budget the Board passed in June. In September, the Board will officially adopt the actual budget and appropriation ordinance after a public hearing in September. I have put together the ordinance but I want Doug to review it first before I share it with the Board. I will be sending out the ordinance to the Board next Monday.

Thanks,
Ryan
