Good evening,

I plan to provide the Board with a brief update on where we are at with our strategic plan efforts next Tuesday night. After the Board's discussion of Mission/Vision at the October CoW and realizing that the outreach effort we will be putting in for this strategic planning effort far exceeds what we did for the last strategic plan, I am proposing we extend the timeline for the process. Attached is an updated timeline which provides a snapshot of what I am proposing.

Thanks,
Ryan
