Good morning,

I am happy to report that the skylight project is complete. While the installation of the skylight panels took longer than anticipated due to weather and did inconvenience patrons and staff at times last week more than we would have liked (i.e., cold climate in parts of the building, public internet access being shifted over to the computer lab), the good news is that the new skylight panels are installed now before winter comes and the early precipitation tests we've experienced have resulted in zero leaks.

Thanks,
Ryan

"Congratulations on the new library, because it isn't just a library. It is a space ship that will take you to the farthest reaches of the Universe, a time machine that will take you to the far past and the far future, a teacher that knows more than any human being, a friend that will amuse you and console you---and most of all, a gateway, to a better and happier and more useful life."
– Isaac Asimov
