Good morning,

As I shared with the Board at the December 2020 Committee of the Whole, our retaining wall along the northwest corner of the building (see photo above) needs replaced soon. While it is doubtful that we can get it replaced before spring, we would like to make arrangements to replace it as soon as possible. Unfortunately, we did not account for this expenditure in the current fiscal year's budget. However, we do have just over \$21,000 remaining from the parking lot project. Thus, I am asking the Board to consider approving up to \$9,000 in the current fiscal year's budget to fund replacing the retaining wall.

Thanks,  
Ryan
