Update on Water Fountains

Ryan informed the Board that Kevin has confirmed with the manufacturer that we can connect a non-refrigerated bottle filler unit to our existing water fountain. The unit will draw refrigerated water from the existing water fountain. There is an expected seven week lead time for the order. Costs are expected to be approximately \$1400 - \$1700 for the unit itself plus installation costs.

Ryan to provide an update the next Committee of the Whole meeting in February.
